

Uniting Early Learning believes:

- ♥ **Children are the heart of our services.** We value each child and recognise their uniqueness and independence. We encourage each child to be resilient, utilise their imagination and promote their self-discovery.
- ♥ **Families play the pivotal role in a child's life as core role models.** We aim to support and collaborate with each family to build respectful and positive relationships that allow each child to flourish.
- ♥ **Our people provide a united approach in serving each child and family.** We recognise the diverse range of experiences and talent in our people and strive to show mutual respect and professionalism for one another, believing that we are better together.
- ♥ **Our environments represent a balance of the built and natural world.** We encourage children to explore, take risks, and learn to respect and care for the environment and the broader world.
- ♥ **Healthy community is the context in which children flourish.** We commit to providing a faith-based inclusive, equitable, compassionate village that connects and embraces the broader community.
